Student a year to remember *Life*

High school is four years filled with homework, endless classes, and impossible tests. It's that difficult period of trying to 'fit in' while still trying to 'be yourself'. But somewhere between all of the awkwardness and stress, there are those priceless friendships and unforgettable memories that are forever impressed in our hearts.

We promise never to change, but then we realize that it's an impossible promise to keep. In the past year, our circle of friends has changed and our ambitions in life have become more defined. Through it all, however, we partied together, cried together, and laughed together.

Whether it's lunch time activities, club meetings, class field trips, or sports practice, the student life on this campus is always vibrant--

full of vitality and energy. Maybe you took advantage of all the different opportunities available to you; maybe you just liked being with your friends, but whatever you did, it was hopefully worth while in the end.

Sarah D. Smith wrote "Remember the little things, for one day you may look back and realize that they were big things."

Remember this doesn't last forever so never let a day go by without living it to the fullest.

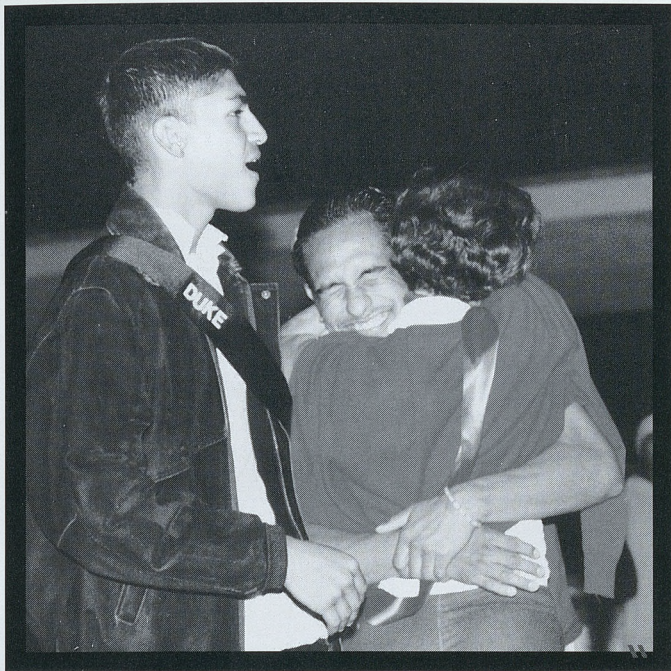

Remember that you are here only for a short while; so make

it last, make it memorable, make the best time of your life.. And always remember, when you leave here in four years, you are walking out with

much more than you walked in here with..."
-Shilpa Vuthoori

if I ruled the world...

“Friends, basketball, football games, and other activities made this year one of the best years of our high school career. Our senior year was filled with different opportunities and memories which we will never forget.”

Now Boarding!

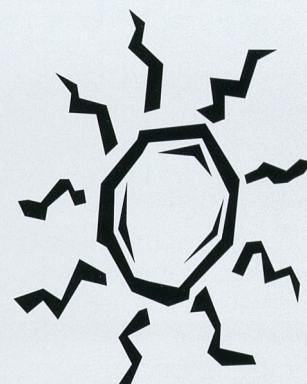

Whether they acquired a tan, caught some waves, gained some sleep, visited relatives, read an excellent book, attended summer school, or worked, students found ways to occupy the sizzlin' summer! The band and Spirit Corps had a thrilling tour of Australia and New Zealand. Rebekah Williams (10) (at right with Sonya Kailee (9)), said that she would love to go again. Several students traveled throughout the fifty states, and others explored different parts of the world. Dane Grayman (9) (center) said that his favorite part of the summer was blowing three months of allowance on souvenirs. Sheena Cabacungan (10) and Deah Amaya (9) (below) had a blast while fishing at Big Bear Lake. Students had a great summer and came back to school with exciting stories and pleasant memories.

"I'm not afraid of ghosts!" Billy Duffy claims he is a non-believer in any type of "hocus pocus." To prove himself, he valiantly sits beneath a ladder with a black cat, demonstrating #2's and 3 of the "Top 5 Superstitions" list.

Hocus Pocus

Are You A Believer?

Supernatural or scientific? Destiny or chance? Luck or hard work? Superstition or logic? Which is fact and which is fiction? Should we listen to the magic 8-ball, or the Surgeon General's warning? Although we are living in an age of enlightenment and logic, the metaphysical and supernatural still continue to fascinate us. When asked about their beliefs, students responded with defense and confusion. While some may view destiny, the supernatural, luck, and superstition as occult and immoral, others view these things as states of mind and ways of life. Matt Eschete (12) answered, "I believe in all of it, because how can someone not believe in something just because it hasn't been proven? I'm more of a Mulder than a Scully because I want to believe that the cause of something strange is something strange." Christyne Want (12) says "It's not witchcraft; it's being in tune with nature and the energy around you," in defense of her beliefs and the misconceptions about them. Views opposing the supernatural were numerous as well. Chrysta Wong (11) defends logic saying "Things have specific reasons for happening." Alfredo Garcia (12) also supports the idea that everything in life has a scientific explanation in his statement "I believe that superstitions were all invented by badly informed, ignorant people who did not have an understanding of natural phenomena." Other students claimed that all supernatural/paranormal occurrences are part of a large-scale government conspiracy. What is fact and what is fiction? What is the explanation? Who knows? =)

COMING TO A THEATER NEAR YOU!

Movies play a large role in student life. Each of us can recall a special memory of a movie that makes us laugh out loud, brings tears to our eyes, or gives us something to think about.

Through movies, we are able to escape from the real world for a few hours and enter an imaginary one. These movies have the power to captivate audiences across the nation.

1998 has been quite an historic year in movies. Titanic became the highest-grossing movie of all time. The comedy There's Something About Mary became a sleeper hit during the summer by word of mouth. The decade's most memorable movie moments were created during this year.

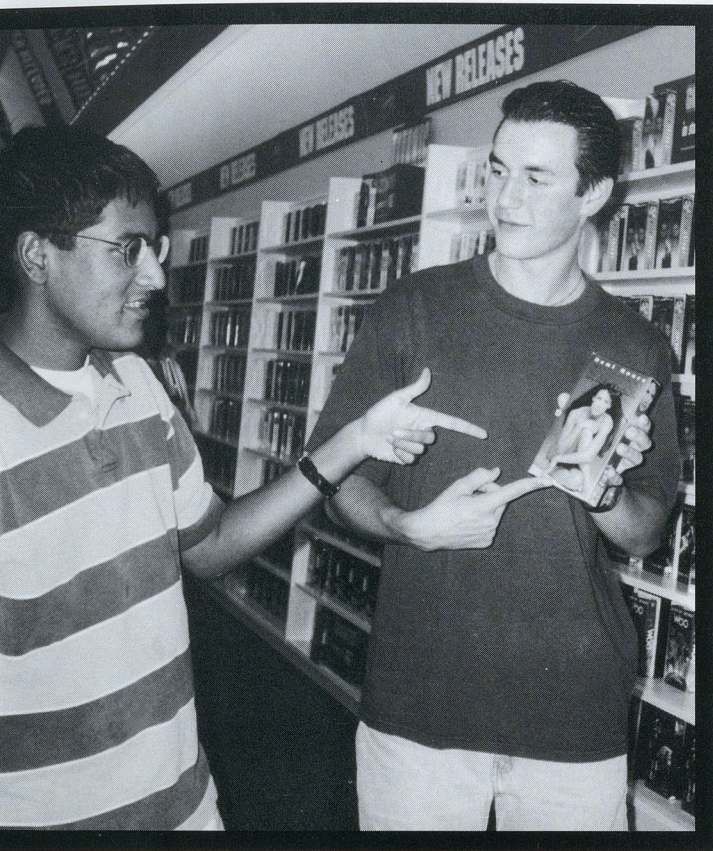

Who can forget when Bruce Willis sacrificed himself to stop the asteroid from destroying the earth in Armageddon? Or the last scenes of Saving Private Ryan when Matt Damon's character relives the horrific memories of war?

Movies impact us. They help us laugh when we're sad, and entertain us when we need to escape. Movies will always have a lasting impact on our lives.

Marcel Clayton (12) feels that style is in the eye of the beholder. To him, style is having that clean, smooth look, with everything matching and adding his own creativity.

Overflowing with Mad Style

Looking too good to be true is Stan Burton (12).

Have you ever wondered how fashion and style originated? According to *Encarta Encyclopedia*, styles of the 1900's were derived from the European world and gradually changed to fit an 'American' style. For centuries, men's fashion outglistened women's. Females wore simple, modest dresses while males wore extravagantly-designed garments. Early feminists revolted against social and political restrictions and refused to wear corsets, which brought back the 'natural shaped' look for women. By the mid-20's, skirts had risen to the knee and women began wearing trousers. Today, skirt lengths vary from season to season, and pants have become a staple in most women's wardrobes.

Clothing that is well cut and that enhances the appearance of the wearer continues to outlive fashion. Choices in attire have been affected by changing styles, sexual attitudes, social status, migration, and traditions. "Chic" is best described by Renee Small (11) who said "There is no one definition of style. Everyone has their own. Your personality and who you are is portrayed in your style. It's what you make of it." Christina Taylor (11) concluded that "Style is my unique idea of what is attractive, beautiful, and creative."

42% of students surveyed said fashion was a major part of their lives. Mike Boutte (12) responded "Yes, fashion plays a part in my life because I enjoy looking nice and dressing up, but I do it for myself and I don't let it change who I am." Tessa Winkelmann (12) proclaimed "Fashion is the foundation of self-expression. What you wear doesn't define who you are; it just makes your aura a bit brighter." A student who wished to remain anonymous wrote "Fashion is the only way to express yourself in a matter of seconds."

58% of observers declared that being fashionably crazed just wasn't their style. One student said that "...fashion and trends are what create images." Another student commented that her world does not revolve around being fashionably-inclined, "because I dress to impress myself and not others." Jordan Christy (12) stated he does not understand "the need for insecure people to buy the most useless expensive clothes when cheap, non-name brands are just as effective." How does fashion play a role in your life?

My New Deck

Today I got a new deck,
Because my old one looked like heck.
I put it all together to skate--
Everyone was here; I couldn't be late.
One of my friends named Rick

Since everyone was here,
I should think "No Fear."
And as I got ready,
My feet didn't feel very steady,

I started getting crazy,
Everything got hazy.
I saw my new board
flying in the air;
it landed way over there.
My new board broke in half.
Everyone started to laugh
Then they all said
"at least you tried,"
but I just laid there and
cried.

The World of Lunch

The bell rings. Freshmen and sophomores rush to one side of the campus while juniors and seniors rush to the other; freshman and sophomores hurry to be first in the lunch line while juniors and seniors hurry to be the first off campus. Only the quickest get to eat.

Lunch is only thirty-eight minutes long--much shorter than a class period--so what is there time to do?

Upperclassmen get the opportunity to go off campus, but even at restaurants, there are extremely long lunch lines. Students have to drive fast off campus and then drive twice as fast to eat on campus. "Coming back on campus is so hard because I want to enjoy my food instead of driving 95 miles per hour," states Brandon O'Brien (12). Jamie Scheinrock (12) explains she always goes the speed limit (but that's because Jamie doesn't have any classes after lunch).

Many students use lunch as a time to

talk to their friends about the day that passed or things that will be happening over the upcoming weekend. "My friends and I talk about all the things that have happened throughout the day, and about how much we hate our next class," explains Lindsey Buerke (12). Danielle Ortiz (12) says that her friends' and her lunch-time talk is about "Our futures--where we are going to be and what we are going to be doing."

Lunch is a time for friends to get together--on or off campus--to talk and relax before their next classes. Whether it be in a car or at a table, lunch allows students a little bit of freedom.

United Colors a year to remember of people

Our school is a microcosm of the world, for there are many different cultures, ethnicities, talents, and tastes coexisting on this campus.

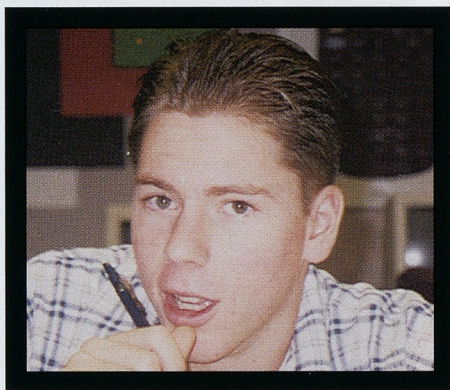

We all share the same classrooms and teachers and the same problems that accompany teenage angst, but we still manage to retain our individuality. So, what does make one person different from another? Senior Leigh Villarasa states that "a person's attitude, sense of humor, and fashion sense defines him or her."

We are distinguished by more than our physical appearance. Our personalities are shaped by our individual tastes and interests-- whether

we like art or chemistry. Every intrinsic detail of our lives plays a role in our character, from the clothes we wear, to the sports we play, to our circle of friends.

Our school brings together all of us individuals and creates a rainbow of people, ranging from the loud and outrageous to the shy and studious. Together, we form our own community, complete with the leaders and followers, progressive and old-fashioned. We have an "upper-class" and a "lower class." We have organizations that cover religion, ethnicity, culture, sports, and academics. Here, on this campus, we are one world.

- Shilpa S. Vuthoo

2002 Rules

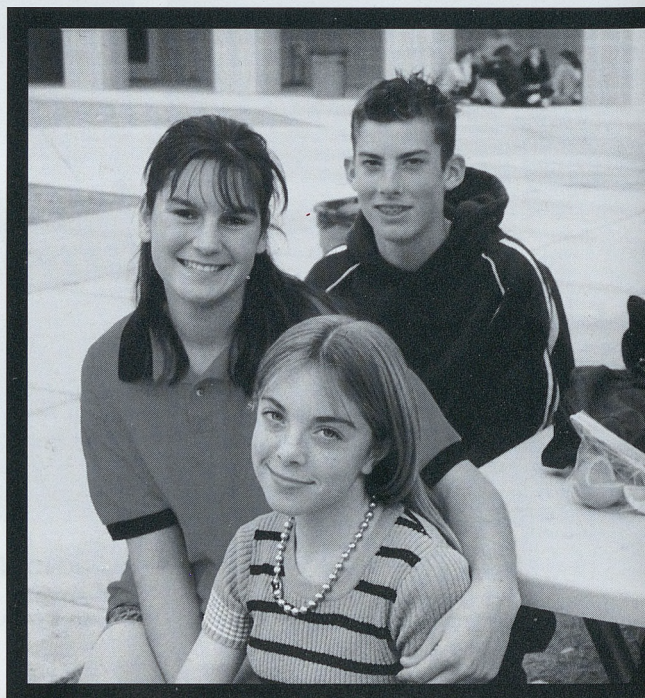

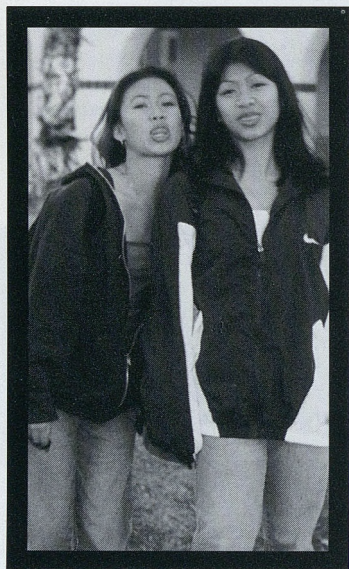

Each freshmen class is unique. A personality of its own slowly develops as the class makes it way through each school day. As they reach the end of the school year, the class face becomes observable and readily recognizable.

This year's class is certainly no different. These freshmen faced the many challenges of their high school days head on with intelligence and compassion. They experienced much and learned much; and, through hard work and effort, met the challenges of high school and made them stepping stones to success. The class of 2002 learned that they have the confidence to do anything that they set their mind to.

Face it, it's not easy being a freshmen. Older students always pick on them, thinking freshmen are immature, stupid, annoying goof-offs. Criselle Doble and Shella Carizon (left) demonstrate a freshmen goof off.

Freshmen must face their perils with strength and determination. They must have an exceptional attitude toward school and life in order to survive their high school days. The class of 2002 proved that they have the confidence to do anything that they set their mind to.

Teachers & Staff:

The faculty are the people who work diligently every day in and outside of the classrooms. They promote the success and enthusiasm of their students. They rescue us from ignorance, and motivate us to reach beyond our limits and develop into innovative, imaginative, and slightly more enlightened people. Whether they encourage us, send us to I.S.S., counsel us, or torture us with impossible amounts of homework, the teachers and staff are the backbone of our school, constantly working behind the scenes to give us a complete world of learning and growth.

Once again saving the day, yearbook advisor Danielle Cohen-Bautista makes last minute changes to Chris Michael's layout as a major deadline approaches.

Common clubs are cool Cause

This is where a diverse group of students who, regardless of age or cultural background, are brought together by a single common interest. This is where students are given the opportunity to express their beliefs and explore their talents while collaborating with their peers. Welcome to the world of clubs.

Whether they have been established as campus tradition as the California Scholarship Federation has, or whether they have recently been formed just this year as the Clogging club has, these groups invite friendship, fun, and entertainment.

Clubs cover a wide range of interests including academics, government, leadership, activism, community service, culture and religion. Moreover, groups such as the Asian club, Maya club, Youth for Jesus, and the

Black Student Union encourage everyone to join despite their religious beliefs, ethnicity, or grade point average.

Clubs add to the vitality of campus life with

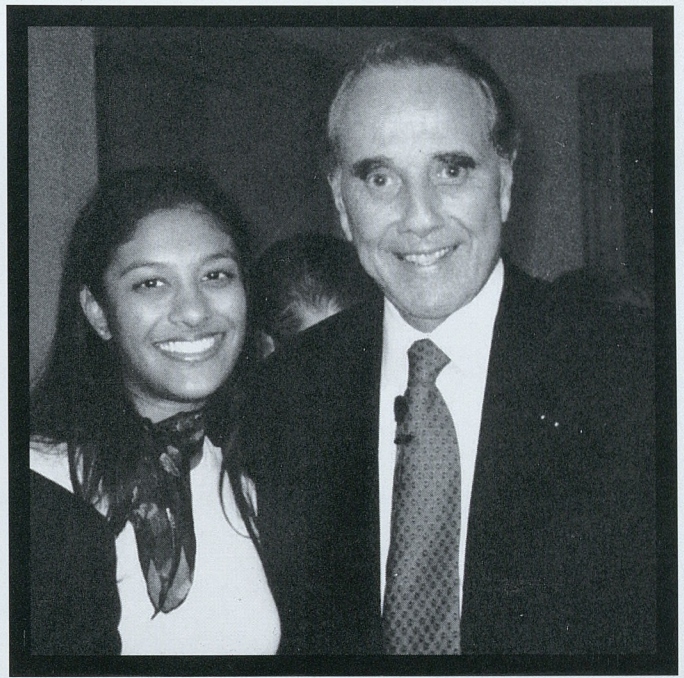

their special programs and the events they sponsor. They enrich the minds of students by exposing them to cultural awareness and unusual points of view. Not only do they promote diversity, but they allow students to learn about their own ideals and heritage. Senior Camille Acuna, an active member of the Asian club states, "this club gave me the chance

to have fun at school, make new friends, and learn about my Phillipino background as well. But, the best part was getting to eat the leftover egg-rolls we made for Asian Day."

-Shilpa Vuthoori

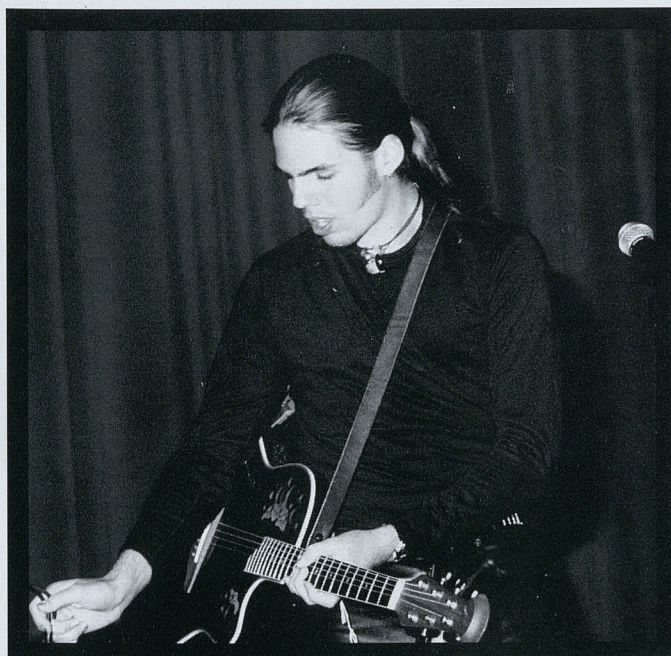

if I ruled the world...

How have clubs made school more fun for you?

"I like being a part of clubs because they let me be who I am and allow me to share my talents with my friends. Plus, I get to miss class for club activities!"

-Tessa, the yearbook guru

The Asian and Maya Clubs-- A Cultural Experience

With two of the largest clubs on campus, the Asian and Maya clubs create a unique atmosphere of cultural awareness. Whether it be through their culture's native dances or through their native delicacies, the members of these clubs learn the spirit of their heritage while teaching and sharing with others their experiences. This year the two clubs became

involved in various activities at school and within the community, strengthening their leadership and volunteer skills. Such activities include washing cars and serving food at school and various other places. Club members met new people within and without the school and created closer friendships with one another.

NEW AND IMPROVED

Our campus expanded in many new and exciting ways this year. Our newest clubs are examples of these changes. The Guitar Club, under the leadership of Mr. Brown, now provides students with the opportunity to express themselves creatively and meet people with similar interests. Ms. Wilson's Clogging Club is a unique and inventive way to learn about clog dancing and perform on campus. "A World of Difference" developed through a grant from the Anti-Defamation League; and with the help of Ms. Johnson-White and other staff members, strived to promote tolerance on campus. Thanks to the devoted work of both the teacher-advisors and the students involved in these new clubs, we can be assured that they will grow and be an important part of our school in the future.

Brain academic dreams Power

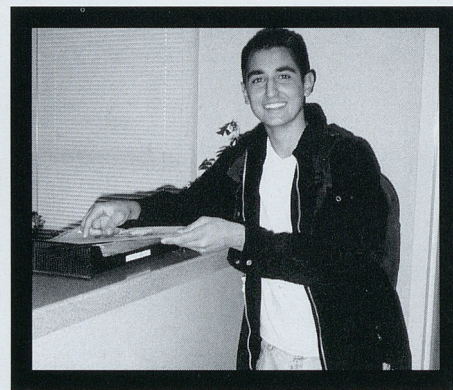

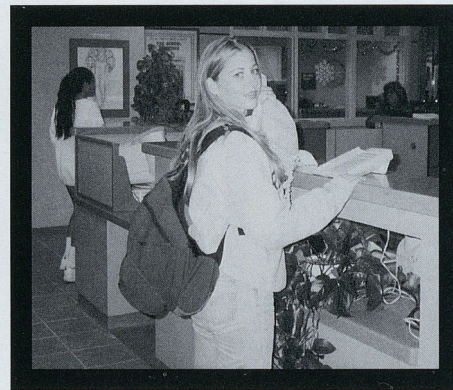

When you think of school, you think of friends, football games, dances, and of course, learning! The academic environment of our school is a network of students and teachers putting together their thoughts, knowledge, brain power, and imaginations.

Our school prides itself on providing the best learning experience possible for each of our students. This year we were honored to have two National Merit Scholarship finalists-- Mehdi Gazor and Shilpa Vuthoori-- among our graduating seniors. With forty-eight of our seniors achieving CSF sealbearer status, our students have met the high academic standards set at our school. The numerous students receiving distinguished scholarships, the members of *Who's Who Among America's Students*, the Advanced Placement and

Golden State Scholars all support our commitment to academic excellence.

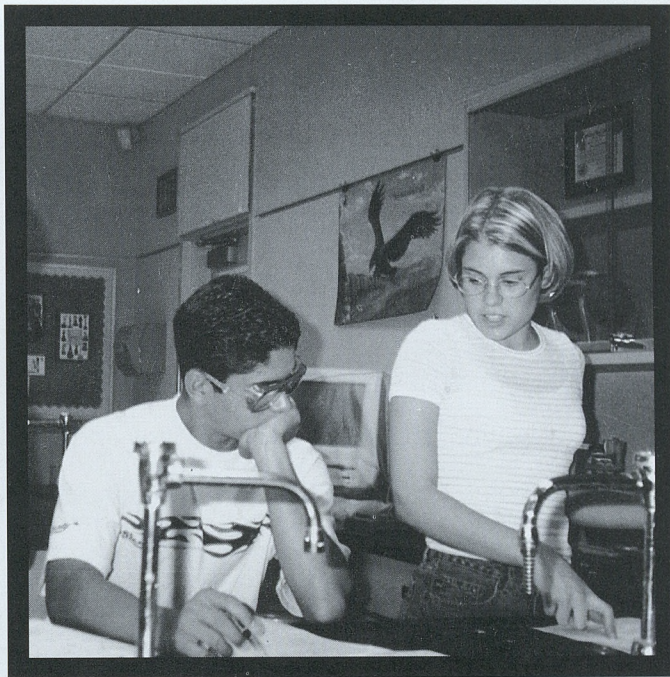

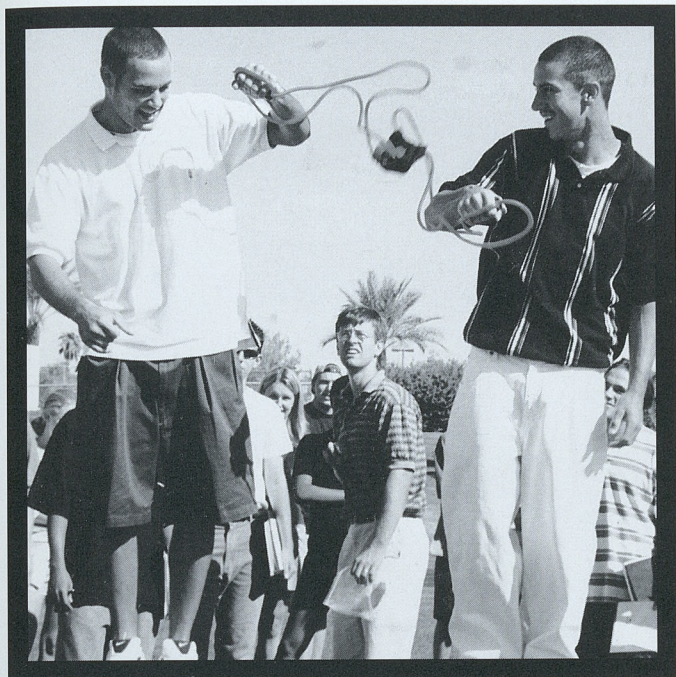

Many of our on-campus clubs are devoted to encouraging students to learn outside of the classroom. The California Scholarship Federation helps exceptional students with their college choices while rewarding students who earn high GPA's. The Junior Statesmen of America promotes political activism in its members through debates and other exciting activities. The Rotary Interact Club and the Kiwanis Service Club help students interact with their communities through public service and volunteer work.

Our mission statement promises "to provide each student with the most appropriate educational opportunities...so that all students can achieve their full potential as contributing members of the community;" and through all of these academic programs, we strive to meet this goal.

Associated Student Body

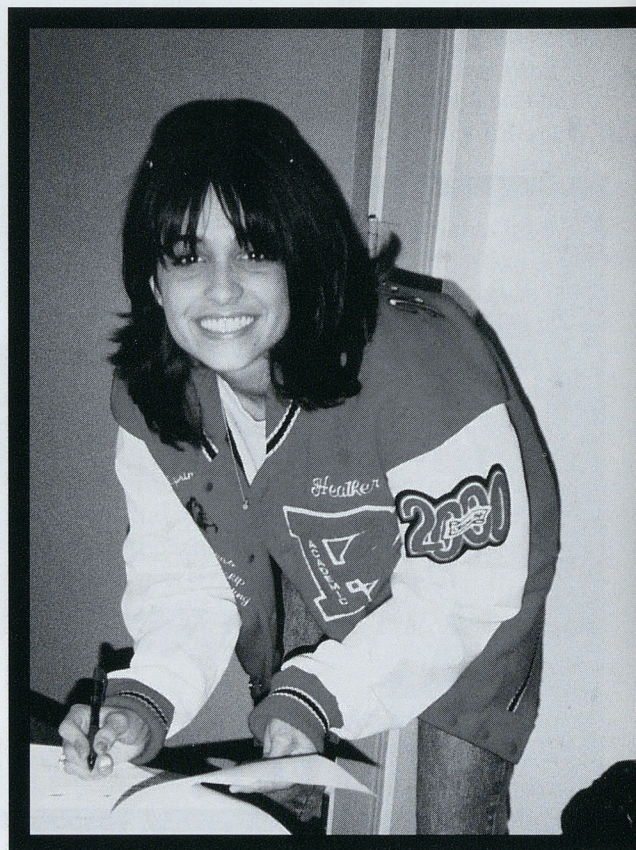

School dances, pep rallies, instigating spirit, encouraging leadership---who is behind all of these activities and enthusiasm? The members and officers of the Associated Student Body are indisputably the people who create the magic at our dances and provide the energy at school events. They work hard to listen to us, to give us the activities we want, and to bring our ideas and suggestions to life. They ensure that the year is memorable for both the outgoing seniors and for the incoming freshmen.

Through the years, I.N.N. has brought the students much to look forward to--namely, 15 minutes off of second period. This year, however, the students look forward to I.N.N. because it covers many new aspects of student life. The new headlines portion of the show informs us of current local and world events. The "Corner" allows the students to see friendly, familiar faces and hear all the important things going on at school. The crazy advertising antics of Kellii Gear and Sean Burford and Crazy Penguin Productions humored everyone. Unlike past years is the extreme dedication of the staff. The staff's efforts to make I.N.N. go farther and report more, while at the same time being humorous and witty have been exceptional. It is the staff's genuine love of the class that makes I.N.N. beautiful.

"We here on I.N.N. are very friendly. One time Kellii paid my Dad to let him in our house and he woke me up with a kiss on the forehead."

Like To Be in
Journalism?
Watch Your
Work Take a
Solid Form

Being in journalism is hectic, but memorable. Editor Nicole Lamar runs several committees and somehow they all manage to get a paper put together---just before the deadline. Working on the Smoke Signals staff teaches students teamwork, dedication, and a sense of responsibility (as well as a deep-seated fear of the word "deadline"). Every journalism student leaves the class knowing how to make themselves understood on paper--how to write clearly--an invaluable skill in many fields. Reporters also learn how to recognize the important parts of an event, making world news easier to process.

Being part of the newspaper staff is a special experience. Each staff member's skills is recognized and used in specialized jobs, giving each person the sense of being needed for a good reason. Individuals build up self-respect by succeeding in their assigned tasks and seeing a solid result: Smoke Signals, the Palm Springs High School newspaper.

Chia *If we had it our way...* World Tour

What would we do if we could have it our way? This year, the 1998-'99 Chia staff did have it their way. Our tour of student life was one of many new additions to the yearbook, including neat new touch-sensitive endsheets. The staff also tried a new innovation—making the yearbook more interactive. In our quest to improve our book, we didn't forget about having fun and enjoying the class. Being humored by the staff was one of the brighter points of the class. Ridiculing and making nicknames for each other was a definite highlight of the year. Nothing can compare to the wonderful sense of camaraderie and closeness that we felt upon entering the yearbook room, or the thrilling feeling of receiving our first set of proofs. No one will ever forget the incriminating pictures of Gilbert, or the day of our first deadline when George started having a nervous breakdown. I know that I will never

forget the frantically insane look on Shilpa's face on our fourth deadline, or the day that Mike confessed that he liked Duran Duran. Another memorable moment was when the staff decided to take matters into their own hands and stack up all the chairs in the classroom to conduct a little experiment. Whether involved in a thoughtful conversation or a hilarious group discussion, it was always in the company of good friends. Hopefully, these few pages will be able to hold all the memories and good times that we had working on the yearbook, and we hope that we have done a good job in preserving everyone else's as well.

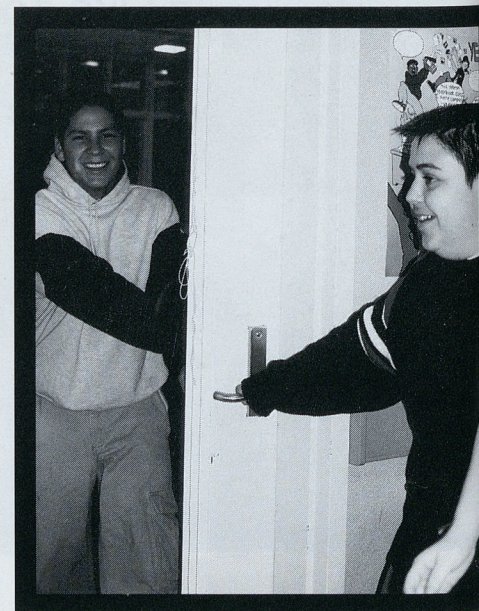

Senior Staff

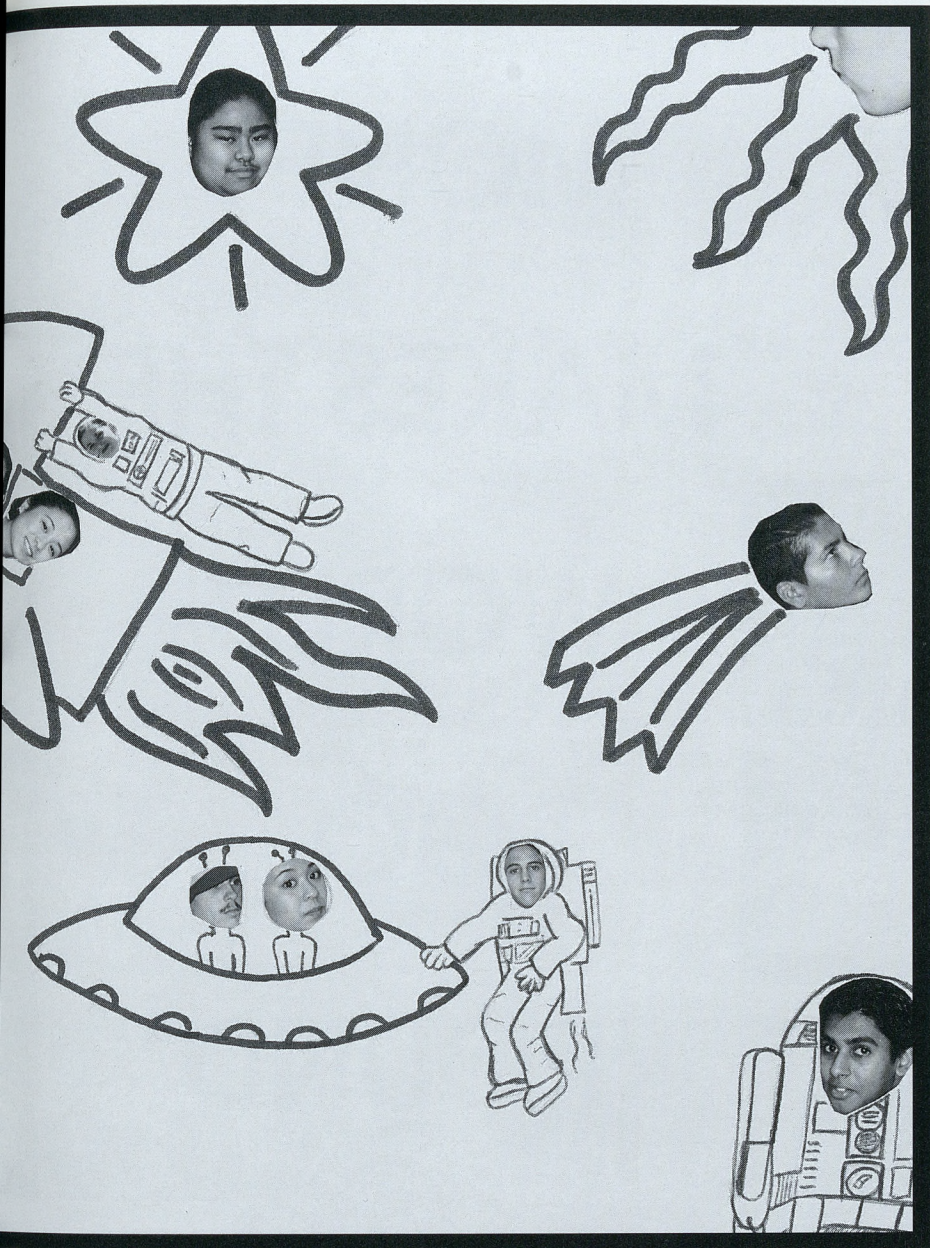

Every year the *Chia* seniors try to make the yearbook better than the last. This year the seniors who contributed to the *Chia* cause were

The unfortunate *Chia* Staff gets its tour bus hijacked by the infamous "Vanessa the Martian." Advisor Danielle Cohen-Bautista attempts a rescue mission, only to be left hanging. Other staff members decide to soak up some local color and befriend some of the natives. The natives however, were a bit wary when black sheep Jude Petrilla tried to board their ship.

"Yearbook is your life . . . Yearbook is your life!" Mike George practices his mind games in a futile attempt to turn helpless staff into his slave drones.

THE APPLICATION OF AUTOMOTIVE SKILLS

Auto shop and Mr. McEneaney have been a part of our school for the last thirty years. In fact, every year, Mr. Maceneany receives several students whose parents were enrolled in the auto shop program. Our auto shop class built the first electric car in the country without the aid of a corporate sponsorship.

Students get the opportunity to receive extra credit by interning at local car dealerships. Auto shop students learn how to do brake jobs, tune-ups, tire rotations and changes, clutch jobs, preventative maintenance and safety checks. "Mac" has a B.A. and M.A., is certified in auto and truck, and also teaches at C.O.D.

Standing Straight and Tall

Marching down Palm Canyon for the homecoming parade is the AFJROTC Cadet Corps.

The Air Force Junior ROTC program is finishing up its fifth year at Palm Springs High School. During the school year, students can enroll in aviation science for either non-lab science or elective credit, or aviation drill class for P.E. credit. Aviation classes consist of 60% academic and 40% leadership training. Academics include the history of flight, the science of flight, and space exploration. Leadership includes learning the principles of leadership, holding positions of responsibility, and learning teamwork through marching. The drill class is designed to improve marching skills, and cadets also learn how to present the flag and spin rifles.

The primary goal of ROTC is to develop better citizens for America. This is accomplished by stressing self-confidence, discipline, and

service to the community. Cadets volunteer their time at the Palm Springs Air Museum, helping to keep the vintage airplanes and facilities clean; at the stroke center, helping with patients' rehabilitation by teaching them how to march; and at the Palm Springs Pavilion and Convention Center, assisting as ushers during concerts. The Color Guard performs all over the city and has been declared the official greeters for the City of Palm Springs.

Students can take ROTC for up to four years. While students are in ROTC, they can move up into positions of increased responsibility, which gives them a chance to learn valuable leadership skills. They also earn rank and ribbons, which are awarded for accomplishments in the program. ROTC builds character and fosters esprit de corps.

Many people view art as something that simply makes things pretty. In truth, art is beautiful for its appearance, but more importantly, for the emotion that it releases. Whoever said that a picture is worth a thousand words couldn't have been more right. A simple picture can tell a story of love, sorrow, passion, greed, hate, jealousy, or any other emotion imaginable. And why do we, as human beings, continue to pursue our inherent instinct to create, and to beautify? It is our desire for that purgation of emotion that drives us to produce art that imitates life. Our desire to be understood and sympathized with makes us continue to create art. Nothing comes close to the overwhelming feeling of pride and satisfaction that emanates from the creator of a finished piece of art. The impact felt by the viewer is all that the artist needs to continue creating. From cavemen carvings on walls to the latest forms of computer design, art has proven to have a lasting impact.

Center all eyes on you Stage

As Shakespeare so neatly put it, "All the world's a stage, and men and women merely players." The performing arts students at our school strive to play their roles to the maximum, providing their audiences with a fantasy world in which to escape, while fulfilling their own dreams.

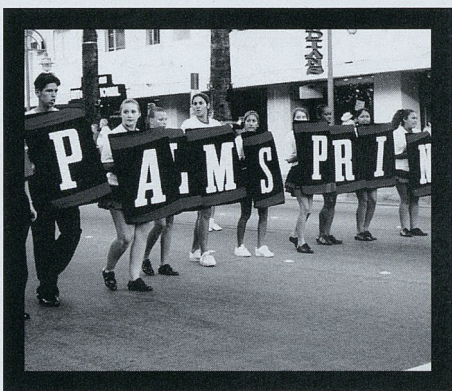

The dancers, band members, actors, and singers of our school perform brilliantly on campus and abroad. This year, the dance ensemble performed at the University of California, Riverside as well as on the

U.S. Holiday cruise ship. The Madrigals made an impression on audiences throughout the area, and earned second place at a competition under the leadership of Mr. Martus. The Madrigals also performed at the nationally recognized Palm Springs International

Film Festival. The Spirit Corps had an amazing experience performing in Australia during the summer of 1998 and look forward to their trip to Italy in July of '99.

When asked about the impact dancing has had on her life, senior Ashley Bowman responded, "Dance has become important to me in so many ways. I have made so many friends, and we have all grown physically and spiritually." The performing arts department gives students an opportunity to journey to

national and even international competitions and performances. Our Spirit Corps, choir department, and Dance Ensemble have impressed their audiences on and off campus by allowing students to express themselves and show off their talents.

The Rockin' Voices of Choir

What is the best part of being in choir?

"I think that the best part of being in choir is getting a chance to be friends with new people and developing close relationships with them."

-Rachel Prichett (10)

Choir lead a very productive and great school year. Members of choir participated in numerous exciting events. Concert Chorale sang "Phantom of the Opera" at the opening night of the Palm Springs International Film Festival. Their annual "Sounds of the Season" concert was a hit. The Madrigals went on tour for the "World of Music." We were extremely proud of them when they came back with second place. Choir played an active part in Oliver, our spring musical. Some of the other performances included "Spring Sing," their spring concert, and "Cabaret Night," their last concert of the school year. Choir sang at various faculty holiday functions. There were also some fun extra curricular activities for choir members. Some of the activities included laser bowling, hikes, a picnic, and two very successful car washes. When asked to sum up her feelings regarding the 1998-1999 choir year, Rebecca Udow (11), replied, "We learned more about music, met new people, and had fun."

Team wide world of sports Work

We are the students who practice after school everyday, rain or shine. We are the people who run miles, swim laps, and cover the court. We are the athletes who never tire of energy, who epitomize teamwork, and who never let down our fighting spirit.

The realm of sports is composed of individuals who mesh unique talents and strength with the rest of their teammates to create a solid force that is indomitable.

We prove that there is much behind the term "jock"- there is strength, courage, endurance, determination, and most importantly, skill. Those of us who climb through the ranks from the freshmen teams to the places reserved for varsity, demonstrate

the hard work that goes into athletics.

Through the injuries and losing slumps, we still manage to function as a team because the second we dive into the water or step onto the wrestling mat, we can only focus on one thing: playing our hardest and giving our all. We learn to rely on each other and overcome any obstacles we face.

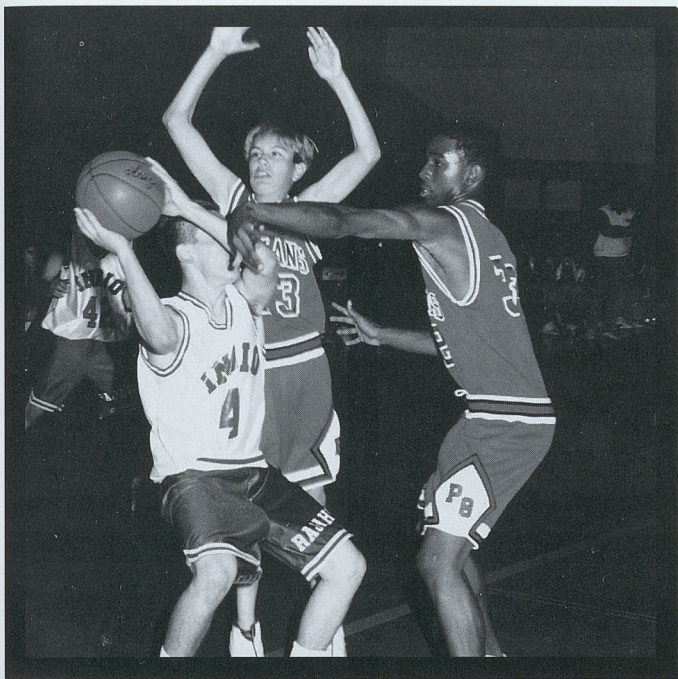

Senior Tanisha Tatum, a member of the varsity volleyball team and soccer teams commented on the effect teamwork had on her: "My teams became

my families, especially in my senior year, because we performed together as one."

Starting off with a good season, the Indians beat both Moreno Valley and Perris. This gave the team an upper hand in going for the D.V.L. title. Most of the players lost their enthusiasm to play the game and they lost the "electricity" they had the first two games. Next year we expect to have a young squad with star returning players David Stone and Justin Biggs just to name a few. The mighty Indians hope to see you all in the '99-'00 football season.

This was an outstanding season for the J.V. Football Team who earned a 6-4 DVL record, led by Coach Tyrus Brown and Coach Carlos Estrada, as well as captains Avina and Patterson. We performed our hardest, pushing ourselves to the limit. We had to step up to the challenge and we did. During a memorable game we were down 15-11, but we came back to win.

Our freshman and JV volleyball teams have given us an outstanding effort this year. With a freshman team record of 15-3 (9-1 DVL) and an undefeated JV team (14-0), these young ladies have proven that they are ready for the big leagues. Coach Hollinger has helped our volleyball players prepare for future victories on the varsity team. Commenting on the team's performance this year, junior Brooke Rausch said, "This year we learned a lot about sportsmanship. We grew a lot as a team, and I know we'll do a great job next year." The team's energy and spirit have definitely reflected their efforts, and their love for the sport and our school.

This year our cross country team redefined the sport, bringing a lesser-known athletic activity into the spotlight with our amazing record. Running three miles a race requires a lot of energy and stamina, so the cross country team started practicing together last summer and continued to work hard into the fall season. We placed third in County and managed to walk away from all of our invitationals with plaques and trophies. We remained undefeated in league and became league champions. Newcomers to the team did not know what this sport was all about, but two things are important to the cross country team: sticking together and winning together.

Serving It Up

This year, the girls' tennis team proved there is more to looking good on the court than wearing cute uniforms. With a strong DVL record of 6-4, an overall record of 7-5, two 18-0 sweeps, and four doubles sweeps, these thirteen ladies aced the game of tennis. When asked why she felt the team performed so strongly, Coach Janie Erikson replied, "These girls are always at practice; and at games, they are always cheering each other on. The girls have also grown more comfortable with one another as a team."

Whether they were serving up some heat on the tennis court or singing on the bus ride home, these girls never once let their unflagging spirit fall. "This was my last season on the team and my most memorable. We captured an amazing record and played some wonderful tennis, but the enthusiasm that our team held for the game, and the fun we had playing it seemed to be more important to us than winning," said Captain Shilpa Vuthoori. Despite the injuries and suspensions the '98-'99 varsity team suffered, there were many bright points in our season. The team was lead by seniors John Rangel, Jimmy Custer, and Paul Barton. Junior guards David Barton, Bobby Caldwell, and Lyle Reyes displayed leadership and poise. Eddie Robetcky, Luis Diaz, and newcomer Charles Davis provided big bodies in the forward and center positions. The team finished the season with an overall record of 13 wins and 14 losses and placed 2nd in DVL. This summer, the varsity team will attend a summer camp in San Diego in hopes of getting ready for the upcoming season. The future looks bright for the nine returning players. ~Jordi Higuera #21

QUEENS OF THE COURT

This year's 1998-1999 varsity basketball season took off with an optimistic and aggressive attitude. With long practices of constant conditioning and improving our teamwork, we came together to play ball. Though we struggled to beat the opponent, we stated strong and continued to do our best. With Coach Handley's encouragement and knowledge, we were able to win some games. Beating Cathedral City in pre-season helped bring the team together and inspired us to do

our best. With excellent rebounding by Melissa Hall and Latoya Thigpin, we dominated the boards. With Cierra Teel's average of over seventeen points and Erin Chaney's double-doubles, the points added up. With Anjanae Miller and Kara Kleindienst bringing the ball up on the court, we scored our points and took over the game. Though the season was tough, we stayed together as a team.

- It's the only sport with no sweat

The Thrill of the Chase

Left and Below: Led by Gerardo Melin (11), our team dominates yet another relay.

LIFE IN THE FAST LANE

The track and field program flourished this year under the new supervision of Steve Clark and Frank Tucker as head coaches of the boys' and girls' track teams. Although small in number, this impressive group of athletes made up what they lacked in size with hard work and experience. After opening the season with a Desert Valley League win over the defending champion Indio Rajas, the boys' team quickly established itself as the "team to beat" in league competition. At the Palm Springs Relay, they claimed the Boys' Division II title for the first time in over ten years. They backed up this performance with a strong show at the Palomino and Norco relays.

Several members of the girls' team qualified to participate in the league's finals competition. With strong performances at the Arcadia Invitational and the Mount Sac relays, several athletes brought first-time recognition to our school. With such a successful year, state and national competitions may be on the horizon.

~Jason Churchwell

Jason Roberts (12)

The Agony

Cringing in pain after just being struck by a ball, Ernie Zamorez (12) retreats to the dugout. Coach Claggett tells him to take it like a man.

Little League

"If you learn one thing playing baseball, it's to shut your mouth and know your role."
Gene Davis (10)

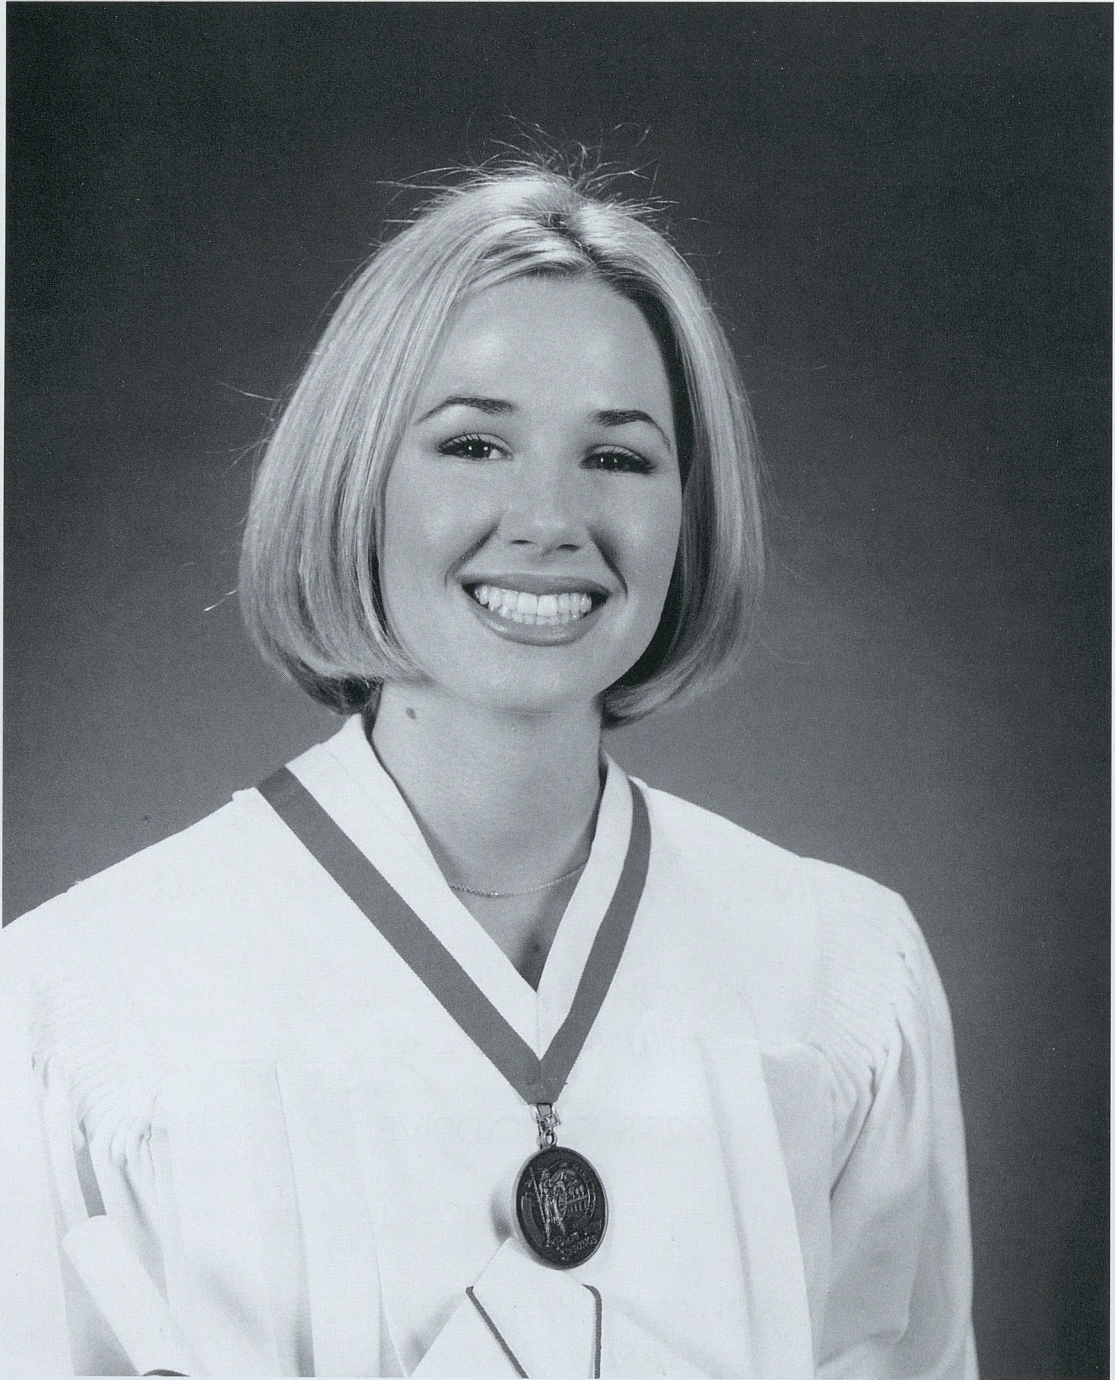

"Life is short. Play baseball."
Michael Giesler (10)

The '99 baseball season was challenging (to say the least); however, with the excellent coaching of William Pellow, the team progressed beautifully. The team's goal was and always will be to prepare players for the varsity level. We successfully trained a number of young men well enough to play with the varsity team.

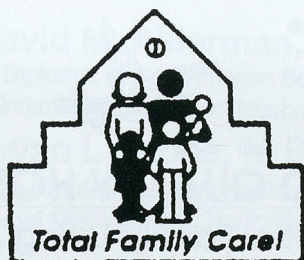

We pride ourselves on the fact that, no matter what--win or lose--we work hard, never quit and always have fun in the process.
